

# CONSULTING OPHTHALMOLOGISTS, P.C.

Phone: (860) 678-0202 ♦ Fax: (860) 678-0277

## Patient Referral Information

The doctors of Consulting Ophthalmologists are available to provide specialized referral evaluation and treatment, second opinions and consultative advice in all areas of ophthalmology including: cataracts, glaucoma, conditions of the cornea and retina, oculoplastics, contact lenses and refractive surgery.

Our offices are designed to deliver the highest quality patient care in a convenient and personalized setting using the latest in both diagnostic and treatment technologies. Diagnostic services include visual fields, ultrasonography, corneal topography, optical coherence tomography, and ultra-widefield fluorescein angiography and photography.

Surgery is performed at the Hartford Hospital Eye Surgery Center in Newington, the Eye Institute at Hartford Hospital, the Bloomfield Ambulatory Surgery Center and the University of Connecticut Health Center.

Patients may be referred to any of the physicians listed. If you have questions about which physician might be the best for a specific referral, please do not hesitate to call and discuss the situation with our clinical staff.

In addition, you may find more detailed information concerning our practice by visiting our website at [www.consultingeye.com](http://www.consultingeye.com).
